The presentation will review current concepts in all-ceramic restorations and esthetic-implant restorations. Emphasis will be on linking research data to clinical procedures in esthetic dentistry, especially in the context of impressions, bonding procedures, cementation, and implant dentistry.

COURSE OVERVIEW #0207-09

The presentation will review current concepts in all-ceramic restorations and esthetic-implant restorations. Emphasis will be on linking research data to clinical procedures in esthetic dentistry, especially in the context of impressions, bonding procedures, cementation, and implant dentistry.

SOME OF THE TOPICS TO BE COVERED:

- Current status of all-ceramic restorations—classification and indications for all-ceramic systems, from porcelain veneer to single unit crowns to a full-mouth rehabilitation
- The rationale for the selection of cements, bonding agents, and impression materials for esthetic applications including materials classification and indication for use
- Esthetic implant restoration—Using all ceramic technologies in anterior single implant restorations

LECTORER
Dr. Avishai Sadan, DMD

Dr. Sadan is Professor and Chairman, Department of Comprehensive Care, Case Western Reserve University School of Dental Medicine, Cleveland, Ohio. He is the editor-in-chief of Quintessence International, the editor-in-chief of Quintessence of Dental Technology (QDT), served on the editorial boards of other journals, and has lectured and published nationally and internationally on esthetic and implant dentistry and biomaterials. Dr. Sadan maintains an intramural practice limited to fixed and implant prosthodontics.
